Katherine Chia, M.S.

SKILLS

Skills: Quantitative and qualitative research methodologies; research design; project management; public speaking; technical writing; Microsoft Excel; R; SPSS; EEG; Python; SQL; natural language processing; data visualization; survey research; computational modeling; eye-tracking.

WORK EXPERIENCE

"R for Data Science" Course

Aug 2021 - Present

Data Science Instructor

Tallahassee, FL

- Conceptualizes curriculum for an undergraduate introductory series to R for data science.
 - o Develops materials covering workflow, data visualization, data importing, data tidying, and modeling.
- Delivers lectures using weekly to class.
 - o Demonstrates how to design notebook-based code using Markdown and Rmds.
- Assists students with debugging and project conceptualization.

Language, Learning, and Memory Lab

Aug 2016 - Present

Lead Researcher and Data Scientist

Tallahassee, FL

- Designs core strategies, handles multiple projects simultaneously, and selects research methodologies and topics.
 - O Led research group to publish four language production projects in peer reviewed academic journals.
- Oversees data collection, statistical analyses (ANOVA, linear regression, multiple regression, logistic regression, cross recurrence quantification analysis), and executes using R.
 - o Navigates ambiguity in data by interpreting results through visualization and proposing future directions.
- Stays current with research field, uses these findings to inform decisions, and presents conclusions.
 - o Presents findings at local (4x), regional (4x), national (2x), and international (1x) conferences.

IBM May 2021 - Aug 2021

Cognitive Scientist - Intern

Yorktown Heights, NY

- Investigated individual differences in speech production and quantified them for analysis using R and Python.
 - o Wrote Python scripts to automatically tag parts of speech and to assess speech samples.
- Examined linguistic features that were relevant for predicting current and future dementia status in a cohort of multi-ethnic and bilingual adults.
 - o Collaborated closely with a team of researchers across disciplines and industries.
- Analyzed journal articles to execute feature selection and to determine future directions with research.

Language and Cognitive Development Lab

Dec 2015 – Aug 2016

Co-Lab Coordinator

Tallahassee, FL

- Oversaw longitudinal study about language learning in infants ranging from 18 months 4 years.
 - o Administered developmental assessments and performed intake procedures (e.g., questionnaires, surveys) on participants.
- Ran eye-tracking tasks to assess child word knowledge and used these findings to generate insights.

EDUCATION

Florida State University

Expected Spring 2022

Ph.D. in Cognitive Psychology (In progress)

Tallahassee, FL 2018

Florida State University

M.S. in Cognitive Psychology, Magna cum laude, GPA: 3.8

Tallahassee, FL
